

"The Town of Oconto Falls formerly had garbage pickup every other week during Jan-April and Nov-Dec.(cooler months) Garbage was picked up weekly from May-Oct.(warmer months) Every other week pickup costs \$1500/Month (\$9,000/year) and weekly pickup costs \$3,000/Month (\$18,000/year) . Upon requests, the town experimented with weekly pickups in 2016 at an increased cost of \$9,000 per year. This used up money that could be used elsewhere in the budget, if not desired by the majority. So-- We would like to know your opinion through survey. Please indicate a preference.

1. I prefer weekly garbage pickup all year-----current cost \$36,000
2. I think the every other week pickup during half the year (the colder months) and weekly pickup the other six months is acceptable-current cost would be\$27,000-savings of \$9,000
